Add .jpg, .png, .webp or .pdf to match your actual file format. Names are case-insensitive. Review assigned categories before uploading.

Automatic image to PDF conversion

Enable AUTO img to PDF CONVERTION to compress images first and then create a PDF. The final file must fit within 400 KB (400,000 bytes), or the smaller existing Form 20 limit. The option is disabled by default. When disabled, images remain images and oversized files are compressed only if needed.
